1. Attached is #46 of requested list of Chinese Books for Microfilming.
2. #21-#59 and #72 are still at the bindery. We will get them eventually.
3. #56 and #63 are reference books and may not be removed from the East Asiatic Library. One of these two books is a Russian-Chinese dictionary which source feels doesn't amount to much anyway. Columbia has a better one. However, if you insist they will be glad to microfilm both books @ 3¢ per negative exposure, 6¢ per positive foot. Should be less than \$10 for the two books.
